

D-flat minor add9 (D ♭ m(add9))

Notes: D ♭ - F ♭ - A ♭ - E ♭ Formula: 1- ♭ 3-5-9

Two root-bass spacing examples. They are not a complete inversion catalogue.

Added note higher (9th layout) - D ♭ m(add9)

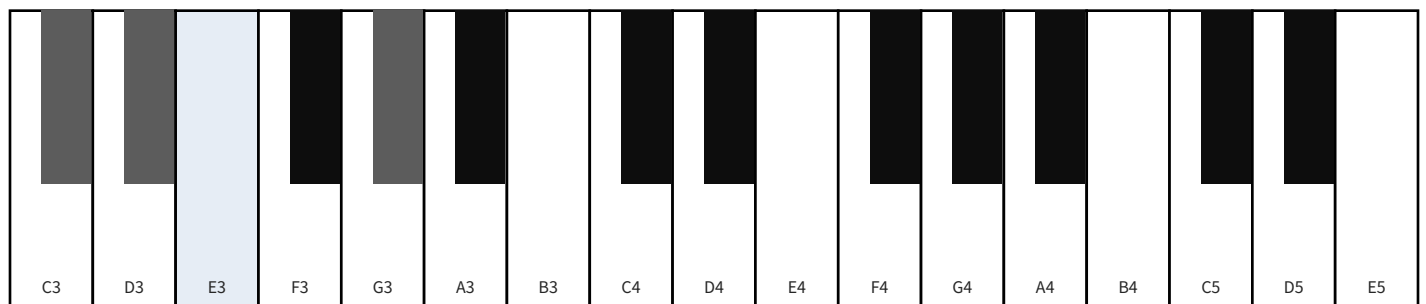

Bass: D ♭ 3

Selected pitches: D ♭ 3 - F ♭ 3 - A ♭ 3 - E ♭ 4

Added note lower (2nd layout) - D ♭ m(add2)

Bass: D ♭ 3

Selected pitches: D ♭ 3 - E ♭ 3 - F ♭ 3 - A ♭ 3

The higher example places the added member 14 semitones above the root; the inside example places it 2 semitones above.

Both examples keep the third and omit the seventh. Octave numbers identify register, not fingers.

Keyboard window: C3-E5. Written spelling is preserved. No fingering is assigned.

Theory and notation references: see Sources on the matching PianoGrid chord page.

Original keyboard diagrams show the written notes, MIDI pitches and formulas above.
