

B-flat minor add9 (B ♭ m(add9))

Notes: B ♭ - D ♭ - F - C Formula: 1- ♭ 3-5-9

Two root-bass spacing examples. They are not a complete inversion catalogue.

Added note higher (9th layout) - B ♭ m(add9)

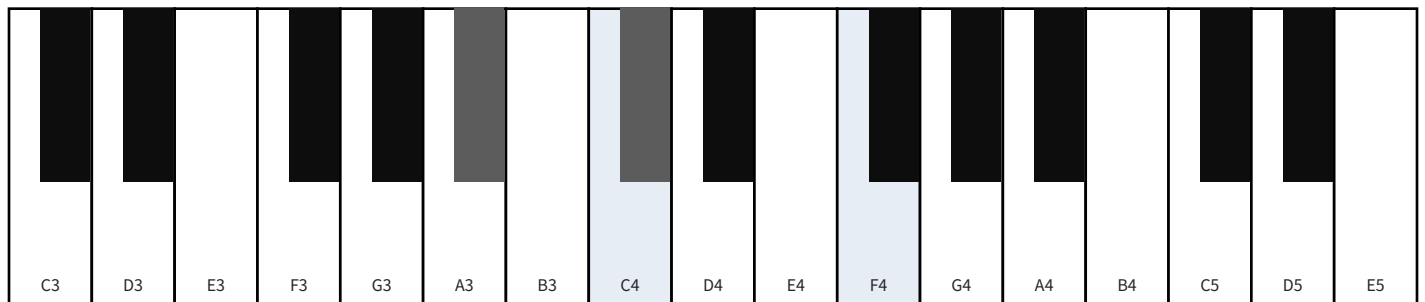

Bass: B ♭ 3

Selected pitches: B ♭ 3 - D ♭ 4 - F4 - C5

Added note lower (2nd layout) - B ♭ m(add2)

Bass: B ♭ 3

Selected pitches: B ♭ 3 - C4 - D ♭ 4 - F4

The higher example places the added member 14 semitones above the root; the inside example places it 2 semitones above.

Both examples keep the third and omit the seventh. Octave numbers identify register, not fingers.

Keyboard window: C3-E5. Written spelling is preserved. No fingering is assigned.

Theory and notation references: see Sources on the matching PianoGrid chord page.

Original keyboard diagrams show the written notes, MIDI pitches and formulas above.
